Feringa Building

- ✓ New building for FMNS; to replace Nijenborgh 4
- ✓ Top quality research and teaching facilities
- ✓ Functional and sustainable design

The Feringa Building (62,000 square metres) is one of the largest construction projects in the Netherlands and will house some 1,400 students and 850 staff members. The building is designed by Ector Hoogstad Architecten and will be built in two phases.
